

### Recuerdos de Mexico

Let Meeting Incentive Experts create that special Recuerdos de Mexico (Memories from Mexico) for your program. Our locally inspired gifts are a creative, special presentation within itself, designed to give your attendees a special memory that lasts a lifetime. All of our gifts are 100% hand made by Mexican artisans, who use only the highest quality materials available.

Our relationships and buying power means direct savings and a seamless, worry free ordering process. We work directly with the factory to ensure every gift is prepared to your specifications (of size, color and design—including branding). Then, we direct ship from the factory to your final destination to ensure on-time delivery.

## DESTINATION

### Knowledge & Expertise...

Adam Lawhorne, President, created Meeting Incentive Experts because he saw a need for a total service solution in the meeting and incentive travel industry. He is an active member of the Mexico Tourism Board's Advisory Board, and past president and founder of the Society of Incentive & Travel Executives (SITE) Chicago chapter.

Having made hundreds of programs to Mexico, the US and the Caribbean, Adam knows what it takes to run a successful meeting and incentive company. His team consists of native staff with over 10 years of experience in destination management services, incentive houses, and hotels & resorts. Their local expertise, on-site connections and leadership skills gives clients an advantage that few can match.

## CREATIVITY

### Unique and Inspired...

We're known for our memorable and creative activities designed to bring people together. One of our famous team building activities is "The Baja Challenge", a combination of Mexico Baja history and creative challenges, where participants become a team. Knowing how to create a unique program begins with experience in motivation, rewards and much much more.

Based on your program needs we will customize any team building or activities so that you can fulfill your objectives. We will use all of our creativity and resources to develop the best destination-inspired options for any objective or need.

## TOTAL

### Program Planning...

Our Chicago headquarters provides convenient access to North American destinations, business centers and clients, and allows us to provide complete planning and management services for programs throughout the Americas, including Mexico, the US and the Caribbean.

Attention to detail is important to us, which is why we handle everything: airline consulting, ground transportation, hotel accommodations, theme parties, meeting services, activities, tours, team building events, local staff and room amenities. In addition, we are onsite during the program, making sure everything goes according to plan (and handling any unexpected surprises along the way).

We go the extra mile to treat each and every guest like a VIP.

## PROGRAM

### Results...

Because we have offices in Chicago and Mexico, and have worked with numerous Fortune 500 companies across a variety of disciplines, we understand the corporate mindset and the need for a return on investment.
